#### **Use of Non-GAAP Financial Measures**

This press release includes certain non-GAAP financial measures. The reconciliations of such measures to the most comparable GAAP figures in accordance with Regulation G are included herein.

Berkshire presents its results in the way it believes will be most meaningful and useful, as well as most transparent, to the investing public and others who use Berkshire's financial information. That presentation includes the use of certain non-GAAP financial measures. In addition to the GAAP presentations of net earnings, Berkshire shows operating earnings defined as net earnings exclusive of investment and derivative gains/losses.

Although the investment of insurance and reinsurance premiums to generate investment income and investment gains or losses is an integral part of Berkshire's operations, the generation of investment gains or losses is independent of the insurance underwriting process. Moreover, under applicable GAAP accounting requirements, losses can be created as the result of other-than-temporary declines in value without actual realization or when certain types of investments are marked-to-market through earnings. In sum, investment and derivative gains/losses for any particular period are not indicative of quarterly business performance.

### **Cautionary Statement About Preliminary Results**

Certain statements contained in this press release are "forward looking" statements within the meaning of the Private Securities Litigation Reform Act of 1995. We caution you that all measures of first quarter 2016 earnings are preliminary and reflect our expectations as of the date of this press release. Actual reported first quarter 2016 earnings may vary from these expectations. Berkshire assumes no obligation and does not intend to update these forward-looking statements.
