<sup>(1)</sup> Generally Accepted Accounting Principles (“GAAP”) require that we include the changes in unrealized gains/losses of our equity security investments as a component of investment gains/losses in our earnings statements. In the table above, investment gains/losses in 2021 include after-tax gains of \$3.1 billion in the third quarter and \$26.9 billion in the first nine months and in 2020 include \$22.4 billion in the third quarter and \$2.3 billion in the first nine months due to *changes* during the third quarter and the first nine months in the *unrealized* gains that existed in our equity security investment holdings. Investment gains/losses in 2021 also include after-tax *realized* gains on sales of investments of \$757 million in the third quarter and \$2.4 billion in the first nine months and in 2020 include \$3.1 billion during the third quarter and \$552 million during the first nine months.

***The amount of investment gains/losses in any given quarter is usually meaningless and delivers figures for net earnings per share that can be extremely misleading to investors who have little or no knowledge of accounting rules.***

<sup>(2)</sup> Impairments of intangible assets in the first nine months of 2020 include charges of \$9.8 billion recorded in the second quarter attributable to impairments of goodwill and certain identifiable intangible assets that were recorded in connection with Berkshire’s acquisition of Precision Castparts Corp. in 2016.

### **Use of Non-GAAP Financial Measures**

This press release includes certain non-GAAP financial measures. The reconciliations of such measures to the most comparable GAAP figures in accordance with Regulation G are included herein.

Berkshire presents its results in the way it believes will be most meaningful and useful, as well as most transparent, to the investing public and others who use Berkshire's financial information. That presentation includes the use of certain non-GAAP financial measures. In addition to the GAAP presentations of net earnings, Berkshire shows operating earnings defined as net earnings exclusive of investment and derivative gains/losses and impairments of goodwill and intangible assets.

Although the investment of insurance and reinsurance premiums to generate investment income and investment gains or losses is an integral part of Berkshire's operations, the generation of investment gains or losses is independent of the insurance underwriting process. Moreover, as previously described, under applicable GAAP accounting requirements, we are required to include the changes in unrealized gains/losses of our equity security investments as a component of investment gains/losses in our periodic earnings statements. In sum, investment gains/losses for any particular period are not indicative of quarterly business performance.
