

# Berkshire Hathaway Sustainability Leadership Council

The Berkshire Hathaway Sustainability Leadership Council (SLC) is an autonomous group of representatives from Berkshire Hathaway companies committed to championing the sustainability efforts of their organizations and serving as a resource to other Berkshire Hathaway subsidiaries as they create and execute their respective sustainability strategies.

## **Purpose of the SLC:**

- Share sustainability strategies
- Advance best practices on sustainability and ESG-related areas
- Provide subject matter expertise
- Support development of resource library
- Identify and communicate emerging sustainability issues
- Plan sustainability-related events, including annual sustainability summit for Berkshire companies

## **Responsibilities of the SLC**

### **members:**

- Council members actively participate in monthly calls and one in-person meeting
- Contribute resources and time required to achieve the objectives of the Council
- Champion efforts and achievements of subsidiary companies
- Encourage engagement from all Berkshire subsidiaries on sustainable practices
- Chair maintains interface with Berkshire Hathaway

## **Outcomes:**

- 8 sustainability summits held; 600 participants in 2020
- Produced Sustainability 101 content for companies
- 14 companies represented on the SLC
- Companies have committed to Science Based Targets initiative, net zero greenhouse gas emissions, set internal emission reduction targets, advanced sustainable fuels, reduced water usage and enhanced efficiency, reducing impacts and risks and identifying opportunities
